## **3. Rules and Regulations**

The Asian Rifle/Pistol Cup 2025 will follow the ISSF and ASC Rules and General Regulations. Detailed information is available on the ISSF website [www.issf-sports.org](http://www.issf-sports.org) and <https://www.asia-shooting.org>

### **Rifle / Pistol Equipment**

Equipment control will be conducted according to ISSF rules, using approved calibrated instruments. Pre-competition testing is not mandatory. However, the athletes are responsible for competing with legal equipment and clothing. All athletes are urged to submit any doubtful equipment and clothing to Equipment Control for checking before the competition. All athletes are subject to being selected for random post-competition testing and will be disqualified if their equipment or clothing is not legal according to ISSF Rules.

### **Rifle Clothing**

All rifle athletes must have ISSF seals with serial numbers on their jackets and trousers. Any rifle jackets or trousers that do not have ISSF seals must be submitted to Equipment Control for inspection and affixing a seal before the athlete's first competition. Jackets and trousers that were previously inspected and have an ISSF seal continue to be valid, except that athletes with more than one jacket or trousers must report to Equipment Control before their first competition to confirm which jacket and which trousers they will use. All other seal numbers for that athlete will be cancelled. Athletes who wish to replace registered jackets or trousers with a new clothing item must bring that item to Equipment Control for inspection and a new seal. Previous seals will then be cancelled. Rifle athletes can have only one active jacket and trousers at any time.

### **Rifle Clothing Post-Competition Stiffness Testing**

If one rifle jacket or trousers panel tests 2.9 or lower, the stiffness device must be recalibrated, and the panel must be retested. If it fails again, but all other panels pass, the athlete will not be disqualified, but a written warning must be given to the athlete and the ISSF seal must be cut off. The athlete can continue using this clothing for that day in that event. The athlete must be disqualified if two or more panels fail (DSQ).

### **Air or CO2 Cylinder**

The athlete must ensure that any air or CO2 cylinder is still within its validity date. This may be checked by Equipment Control.

### **Equipment Control**

Equipment control will be open to the athletes as scheduled in the competition program.
